CAULFIELD PET EXPO

Dogs Bed and Breakfast had a stall at the Caulfield Pet Expo in February this year. We met thousands of people over the three days and gave out our showbags of brochures, fridge magnets and dog food. Deb, Robyn, Jane and Marg were manning the stall!

We also had a free competition to win a huge hamper filled with dog toys, dog food, chocolates and wine! The Cieplik family of Rowville won our Dogs B&B hamper. Their dog Fred (a Bassett Hound of course) loved all of the goodies.

THANKYOU!

Thankyou for your continued support! Dogs B&B now has over 1700 happy customers!

EASTER

Easter is a time when chocolate abounds! Many of us enjoy our Easter eggs, but please be careful with chocolate around dogs.

Feeding pets food that we enjoy is not only wrong, it can be fatal. Chocolate, macadamia nuts and onions are good examples. Each of these foods contains chemicals that rarely cause problems for humans, but for dogs these same chemicals can be deadly. So beware this Easter, don't leave chocolate where dogs can reach it, This also includes chocolate flavoured foods etc. Licking a substantial part of the chocolate icing from a cake can even make a dog unwell.

HOW TO KEEP YOUR DOG HAPPY!

Give your dog a toy! Try a KONG.

Stuffed Kong dog toys are recommended and widely used for therapy and prevention of boredom, separation anxiety and other behaviour problems. Stuffed Kongs will keep your dog busy and content while home alone. There are many Kong stuffing ideas but a tried and true recipe is to smear a small amount of peanut butter inside the cavity of your Kong toy. It's that easy!!

Kongs are made of strong rubber and come in a range of sizes to suit all dogs.

HAVE YOU SEEN OUR NEW WEBSITE??

We are still re-writing the website, but it is new and improved! If you have a photo of your dog while on holidays with us, please send it in so that it can go onto the website.

If you would like to send in a testimonial, we would also love to put that onto our website.

BREED FEATURE – MALTESE TERRIERS

Maltese are an old breed that was brought to Malta from Asia in 1500BC. The Maltese are thought to be related to the spaniel family, not the terriers.

They are extremely small, have a short body, slightly rounded head, dark eyes set close together, feathered drop ears, a high set tail covered with a lot of long coat and carried over the back. Their silky, long white coat reaches to the ground and are a pure delight to the eye when they are cared for and groomed properly.

They are a very cheerful, active, happy and even extroverted dog that loves companionship. Although it dislikes to be forced to do anything, it is patient and never short tempered. This dog is well suited for indoor life!!

Robyn and Jake at the Pet Expo.

Look who we met!

Robyn and friend.
